

YOUR ONE-STOP SHOP FOR FEDERAL LABORATORY INFORMATION

David Kistin
FLC Mid Continent Deputy Coordinator
Sandia National Laboratories
2020

THE FLC'S MISSION

PROMOTE awareness and foster dialogue about federal R&D and the significant economic benefits of T2 among government, industry academia and external partners.

EDUCATE the federal T2 professionals on commercialization best practice strategies through various training opportunities and resources.

FACILITATE federal laboratories T2 goals through FLC-created tools and services that enable an accessible path for getting technologies from lab to market.

Foster lab-to-market strategies and connections to accelerate federal technologies.

| • Govt entities? | ✓YES | | |

* With assistance from the Department of State

SBIR Example – NSWC CRANE

- **US Army Phase II SBIR Project – Flex Force Enterprises**
- **CRADA with NSWC Crane**
 - Joint Research & Development of Improved Stabilized Weapons Platforms
 - Allows for the exchange of information, intellectual property, guidance and ideas on how to provide improved accuracy of stabilized weapon platforms.
- **Mutual Benefit for both parties**
 - Access to expertise and end-users
 - Fed labs involved in cutting edge R&D efforts in a critical tech area

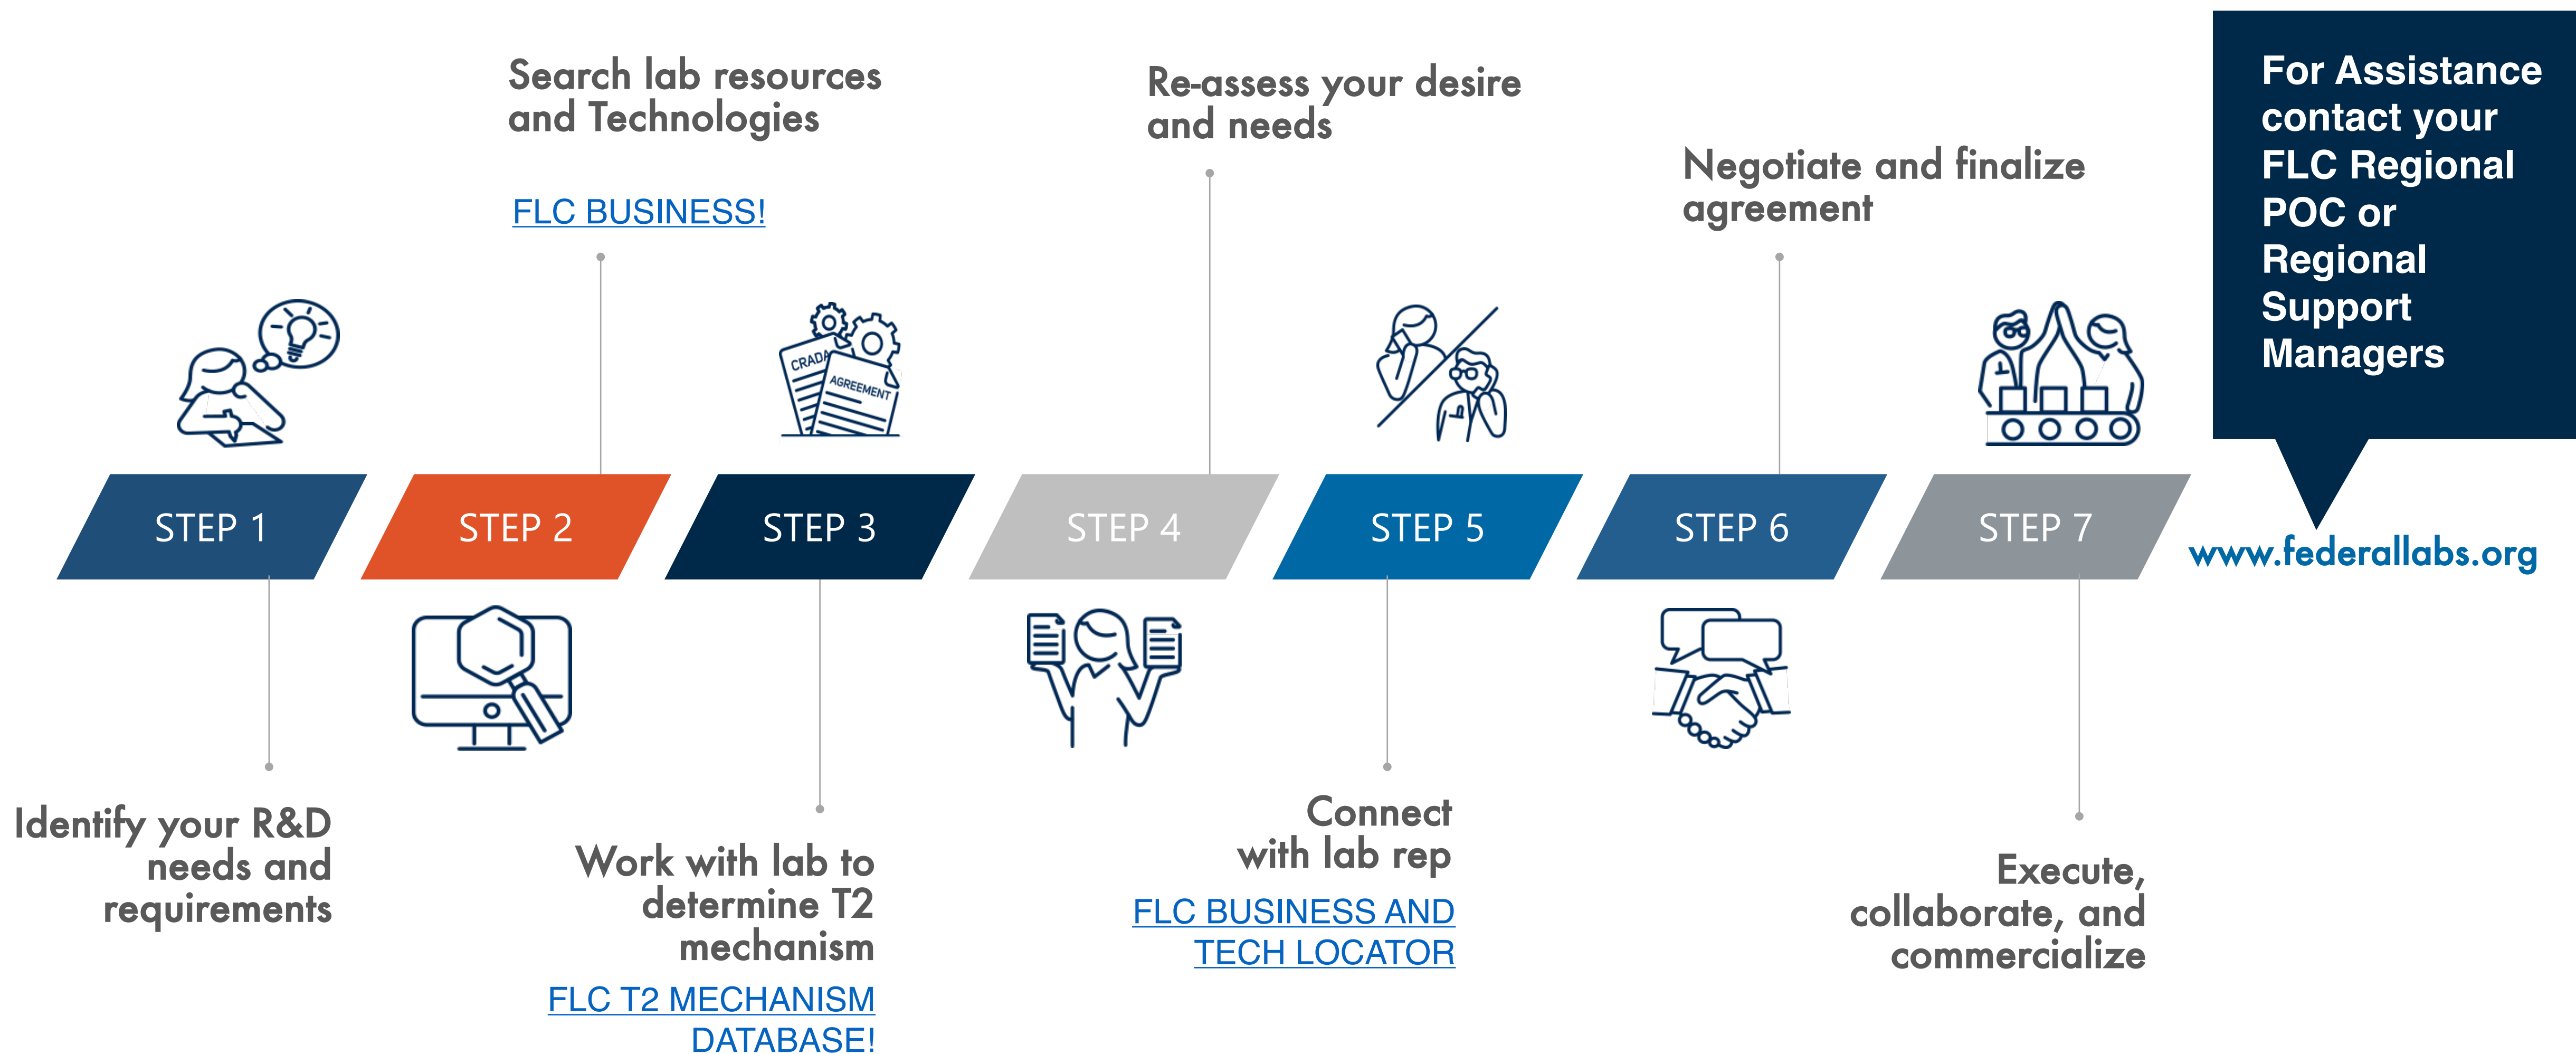

SBIR Example – Naval Medical Center

- **Phase II SBIR Grant**
- **CRADA with the Naval Medical Center in San Diego**
 - Allowed for a California-based small business to utilize the facilities and expertise at the Naval Medical Center to advance the technology and develop a clinically useful tool that could benefit patients with amputations in gait training
- **Mutual Benefit for both parties**
 - Access to expertise and state of the art facilities
 - Fed lab involved in cutting edge R&D Efforts in a critical tech area
